Summary

Product Manager with experience building AI, EdTech, and FinTech products, with strong interest in capital markets and investing platforms, through customer research, experimentation, and data-driven decision making. Experienced in driving product strategy, defining success metrics, and collaborating with cross-functional teams to deliver scalable user experiences.

Work Experience

Airlearn (By Unacademy Inc.)

Jan 2026 - Jul 2026

Product Manager (Intern)

Bengaluru, Karnataka

- Owned product analytics for AI learning experiences, combining user feedback and behavioral data to improve engagement by 12%.
- Defined success metrics and analyzed feature adoption, funnels, and retention using Amplitude and Metabase to prioritize roadmap decisions and improve product performance.
- Planned and executed lifecycle campaigns across push notifications and email, increasing user reactivation & resurrection by 10% through cohort-based experimentation.
- Conducted user interviews in different user segments and analyzed qualitative feedback alongside product analytics to identify friction points and validate feature hypotheses.

Physics Wallah (PW)

Jun 2025 - Dec 2025

Product Manager (Intern)

Bengaluru, Karnataka

- Led end-to-end product lifecycle across FinTech, EdTech, Sales, and Social Media products, from ideation and user story creation to design collaboration and execution.
- Collaborated with cross-functional teams (engineering, design, marketing, and growth) to deliver high-impact features, improving user engagement and retention.
- Designed and documented Product Requirement Documents (PRDs), user journeys, and wireframes, Prototypes ensuring seamless communication between design and development.
- Conducted competitive analysis across EdTech platforms to benchmark feature sets and identify roadmap opportunities.

Projects

FlowMail

- AI Workflow Automation Agent
- Built an AI-powered inbox automation agent that monitors Gmail, classifies incoming emails, and drafts context-aware replies using LLMs, reducing manual email processing time by ~70%
- Automated follow-ups and maintained a live Google Sheets application tracker, saving approximately 5–10 minutes per application and eliminating 90% of manual tracking work
- Evaluated and integrated 3 third-party APIs (Gmail, Google Sheets, Slack) end-to-end, mirroring vendor/partner integration workflows to provide real-time updates - improving application visibility and reducing response delays by ~80%.

Product Insights Dashboard

Airlearn

- Built a centralized Product Insights Dashboard using Amplitude, Metabase, and SQL, creating a single source of truth for activation, engagement, retention, and feature adoption metrics
- Tracked 20+ product KPIs through automated funnels, cohorts, and retention dashboards, enabling faster experimentation and data-driven product prioritization
- Reduced product analysis and review time by 40% by automating release health, funnel, and cohort reporting, helping Product and Growth teams quickly identify user friction

Education

Indian Institute Of Technology, Guwahati

Oct 2023 - Present

Bachelor of Science (BS), Data Science and Artificial Intelligence

Guwahati

- Coursework:** Financial Evaluation and Portfolio analysis, Data science & AI, Big Data analysis, Machine Learning & Deep Learning, Data analysis, Recommendation Systems, Data modeling and visualization

Skills

Technical Skills: Risk Management, Product Development & Management, AI Automation, Claude, Fundamental analysis, Rest APIs, Data Analysis, Product Analytics, User Research, Experimentation, Consumer Product, UI/UX Design, SQL (MySQL, Postgres), Python (FastAPI), Web Technology (HTML, CSS, JS, React), Node.js, Prisma ORM, Express.js, Git & Github, C/C++, Python, Trading

Soft Skills: Effective Communication, Project Management, Strategy & Execution, Leadership, Branding, Product Design & Development, Business Intelligence, Strategic Thinking

Tools: Amplitude, clevertap, Jira, Zapier, MCP, metabase, Gmail automation, Moengage, Figma, PowerBI, mixpanel, Notion, Excel, Canva, Slack, datastax, Wireframing
